

### 3. Technology Respond(FAQ)

what is kind of waste can use in this equipment?	This equipment for medical waste, small animal, Municipal waste, live waste. But WITHOUT any explosive and radiation material.
What's the chamber volume for waste feed?	///
the Delivery time	About /// days after payment. <u>This time is delivery to China port.</u> The sea transportation time from China to /// is about/// days.
Technical warranty:	12 months.
supply of user guides and accessories	Yes
Assembly and testing	Generally, We do not send Engineer to local site if not request. The cost is extra according to order.
Staff training	Buyer's staff can come to China and the cost extra.
Treatment capacity	<p>Average Capacity calculated by medical waste, not mean any waste material. The animal/pet combustion rate around 2/3 of average capacity.</p> <p>Clover incinerator use time per day up to 12-16 hours or 6-8 feed times. Between each feed/combustion time, there are about 0.5-1 hours cooling time.</p> <p>Generally, we proposal small laboratory, small clinic use capacity under 20 kgs per hour. When incinerator use in hospital, please calculate the waste output capacity around 2kgs per people per day. If there are 200 sickbed in the hospital, that's mean you need one incinerator capacity around 400kgs per day, change to capacity per hour is around 30-40 kgs per hour. According the operation time per day, waste material,</p>

	budget, development,etc, you can use capacity from 30-50 kgs per hour incinerator.
Combustion Temperature	The first combustion chamber: 800-1000 centi degree. The second combustion chamber: 1000-1200 centi degree.
Operation and maintenance costs	Operation cost according to fuel consumption rate and power/staff, etc.  Annual around \$500-\$1000usd per year maintenance according model, use situation.  From this year, we supply one bag of backup maintainece material with incinerator, free charge. this supply together with incinerator, do not supply alone. it will help customer easy maintainece.  One person can service 02 unit incinerator. The staff should have basic electrician knowledge to operate/inspect/maintaince incinerator/burner/blower according to operation guide manual , and know risk of medical waste to protect worker self with necessary protection element.
The Residency time in chamber	02 seconds
